

FRANCISCA ENRIQUEZ DE RIBERA

1576 - 1639

According to a 1669 account by Sebastiano Bado, when Francisca Enriquez de Ribera, wife of the Spanish viceroy in Lima, Peru, became ill with malaria, she was cured with cinchona bark. Based on the viceroy's diary, however, the tale is not true.

ANOPHELIA

Ribera

Issue Date: April 25, 2004
