The Moroccan Federation of Disabled and Veteran Soldiers produced a series of postcards promoting soldiers' use of quinine and other strategies for protection from malaria. Four different designs, all by the same artist, have been reported. Additional designs may exist. The issue date is not presently known. The cards measure 138 x 88 mm.

Notes: the reverse of the cards has no malaria-related text

A1-A4 Reverse

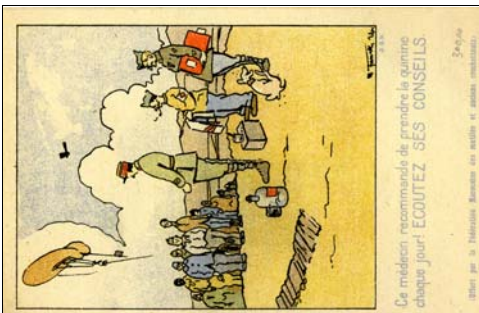

Text: CAUTION! Take your quinine each evening . One does not lie about that!

Notes: text at bottom of card reads Offered by the Moroccan Federation of Disabled and Veteran Soldiers

Price: E

PLANTEZ LES TENTES LOIN DE L'EAU!
Les moustiques qui donnent la fièvre naissent
dans l'eau et vivent surtout, au bord des ruisseaux.
Offert par la Fédération Française des anciens combattants.

Text: PITCH TENTS FAR FROM WATER! The mosquitos which give the fever are born in water and live especially at the edge of the stream.

Notes: text at bottom as above
